This is a listing of the most common rates. For information on other rates not listed please contact South Central Electric.

Rates may be subject to the following Rate Schedule Riders:

Power Cost Adjustment (PCA) – is dependent upon the true cost of power from wholesale and transmission costs from our power supplier. This is a direct pass-through from our wholesale power supplier to account for fluctuations in the energy market.

Standby Power: Charges required to any non-residential member who requires 100 kW or more of standby capacity from the cooperative.

Street Lighting: Includes Company, Municipal, or Residential Lighting

Tax Adjustment: Includes federal, state or local tax charges in addition to any franchise fees

Conservation Improvement Program (CIP) Cost Recovery Adjustment: The amount dedicated to the recovery of CIP costs (i.e. energy efficiency rebates for cooling, lighting, appliances, etc.) as approved by the Minnesota PUC and adjusted annually.

Residential and Non-Residential Second-Nature Renewable Energy Program – Voluntary purchase of renewable energy
